## Description :

Prsentation de l'diteurA gripping and page-turning thriller that explores themes of power, information, secrecy and war in the twentieth century. From the author of the three-volume historical epic 'The Baroque Cycle' and Seveneves.Neal Stephenson hacks into the secret histories of nations and the private obsessions of men, decrypting with dazzling virtuosity the forces that have shaped the past century. He weaves together the cracking of the Axis codes during WWII and the quest to establish a free South East Asian 'data haven' for digital information in the present.Revue de presse"Cryptonomicon, a novel of such ambition and intensity that most modern fiction looks timid and shallow in comparison..." (Guardian)"Cryptonomicon was dauntingly vast: brilliant, splenetic, paranoid and beguiling in roughly equal measures...

Stephenson's...thrilling fluency" (TLS)"An audaciously conceived tale of code-making and code-breaking" (New York Times)"A brilliant patchwork of codebreaking mathematicians and their descendants who are striving to create a data-haven in the Philippines...trust me on this one" (Guardian)"Pynchon meets Gibson in the biggest novel of the season" (Time Out)Prsentation de l'diteurA gripping and page-turning thriller that explores themes of power, information, secrecy and war in the twentieth century.
