Description :

Prsentation de l'diteurProviding readers with a study of learning how to turn poorly lit images into finely crafted, masterfully lit photographs, this guidebook instills photographers with the self-confidence to think on their feet and photograph any portrait subject anywhere. Acclaimed photographer Neil van Niekerk presents seven distinctly different lighting scenariosavailable light, exposure metering, a touch of flash, bounced on-camera flash, off-camera flash, video light, and hard sunlightto show readers how to manipulate the direction and quality of light, the subjects and photographers position, and numerous other variables so as to turn a bad image into a stunning, professional-level portrait. Packed with dozens of instructional, full-color photos, this work also features 10 sample photo sessions, allowing readers the opportunity to see the

seven lighting scenarios put to practice.
