The power to bring men to their knees. Sure, it sounds like heaven to be a succubus, but even after centuries, Georgina Kincaid is still haunted by her past and her loneliness, and her real job in the Emerald City involves assisting men who have made deals with the devil fulfill their pacts. Actual loving relationships with men are off-limits. So, naturally, she has men vying for a place in her life, especially linguist Roman and her favorite author, Seth. While Georgina tries to hold off the threat to her peace they're causing, another, more dangerous menace emerges: something or someone is stalking immortals, and she may be next on its list. At the start of a planned series, Mead cooks up an appetizing debut that blends romantic suspense with a fresh twist on the paranormal, accented with eroticism.
