Description :

Prsentation de l'diteurNineteenth-century Europe abounds with conspiracy both ghastly and mysterious. Jesuits plot against Freemasons. Italian priests are strangled with their own intestines. French criminals plan bombings by day and celebrate black masses by night. Every nation has its own secret service, perpetrating forgeries, plots, and massacres. But what if, behind all of these conspiracies, lies just one man?Revue de presse"[This] magnificent new novel... marks a return to the heady mixture of absorbing ideas and down-and-dirty historical detail that made The Name of the Rose such an international bestseller in the 1980's" (Adam Lively Sunday Times)"This is a great mystery novel about paranoia, prejudice and forgery... We gain access to a world of city streets, strange anecdotes, gourmet menus, and conspiratorial minds... Ecos best novel

since *The Name of the Rose* " (Independent)"A smartly entertaining fin-de-sicle romp" (Independent)"An extremely readable narrative of betrayal, terrorism, murder and gourmandising... The great trick Eco pulls off here is to combine the most chilling of ideas - the origin of a hoax that led to genocide - with, elsewhere in the novel, an often funny lightness of touch... In other hands, this novel could have been grim. But you end up feeling, despite all the darkness, that Eco is one of literature's great optimists" (Sinclair McKay Daily Telegraph)"Imagine Dan Brown adorned with a PhD: that's Umberto Eco" (Observer)Prsentation de l'diteurNineteenth-century Europe abounds with conspiracy both ghastly and mysterious.
