Biographie de l'auteur JP Summers is a Native Texan who resides on a 140 acre farm in northern Wisconsin with her husband and their children. She is a self-published author that loves chocolate and crushing over fictional men that are so unbelievably smoldering, you swear the pages could actually go up in flames while reading the book. This past year she became an advocate for migraines and headache disorders after being diagnosed with chronic migraines and cluster headaches. Despite how disabling her condition can be at times, she has several books lined up to be published in 2015. She also has plans to speak at several medical conferences and advocate on Capitol Hill with others who are just as passionate about raising migraine/headache awareness.
